SHIV POOJA METAL

Packaging is the science, art and technology of enclosing or protecting products for distribution, storage, sale, and use. Packaging also refers to the process of design, evaluation, and production of packages. Package labelling (BrE) or labelling (AmE) on any written, electronic, or graphic communications or the packaging on a separate but associated label.

Packaging can be described as a coordinated system of preparing goods for transport, warehousing, logistics, sale, and end use. Packaging contains, protects, preserves, transports, informs, and sells. It is fully integrated into government, business, institutional, industry, and personal use.
